ABOUT: Project Angel Heart was founded more than 30 years ago to address a major challenge for Coloradans who are severely ill: getting the nutrition they need to get stronger, heal, and remain at home. Many are too sick to get to the grocery store and unable to cook for themselves. Others find they have to choose whether to buy food or medication to make ends meet.

Project Angel Heart prepares and delivers medically tailored meals to people living with severe illnesses. Each week, our professional chefs and registered dietitians prepare thousands of delicious meals from scratch, and tailor them to meet the specific medical and dietary needs of those who are ill. Volunteers help us package and deliver each meal at no cost to clients.

ABOUT: There With Care provides comprehensive, wrap-around support for families facing a medical crisis. They offer services to help with the complex and overwhelming challenges families endure when a child is critically ill. Families gain access to a network of services and people who ease the burden of life's day-to-day obligations with compassion and care.

There With Care supports families facing a range of critical and life-threatening medical challenges, including: Pediatric Oncology, NICU, Organ Transplant, Trauma, and Mental Health.
